"Planning Antioch's Future" to Be Talk by Kingery June 10

Lions Club To Sponsor Mass Meeting at Antioch High School

Invitations to all organizations, and individuals in Antioch to attend a meeting and hear a talk by Paul Kingery on June 10, will be extended April 25th. At this meeting Antioch Lions club in line with the club's program to set up the best possible plan for zoning the village.

C. K. Anderson will underwrite all expense in connection with securing the services of Kingery, Chicago Regional Planning board head, and his staff of engineers, as was previously announced at the first zoning hearing held April 25th. At the meeting Anderson offered to pay all expenses incurred in developing a plan for the village zoning and future growth which would "second to none," and his offer was accepted by George Wagner, chairman of the zoning commission.

"Planning Antioch For The Future" will be the subject for his talk, and it is believed that a capacity audience will be on hand to hear it, as the subject is of vital importance to every resident, and Mr. Kingery is a recognized authority in this field throughout the world.

The meeting will begin at eight p. m.

Legion Team's 1st Games to Be with Round Lake Thurs.

Antioch Legion softball team will meet a Round Lake team in the first game of the season, Thursday evening at 7:30 on the Round Lake diamond. Richard Folbriek, manager of the local team, said today that the players on the Antioch squad were shaping into a nicely balanced aggregation, and that he had every confidence in their ability to take the Round Lake Lakers Thursday.

Bernie Schneider has been elected captain of the Antioch team and he announces that there will be a game at the Antioch high school diamond every Tuesday evening. New suits for the team will be ordered sometime during the week and should be on hand within a few days.

Theft of Gas Caps Brings Arrest of Fox Lake Teen Ager

Two Fox Lake teen age girls, Vivien Strohn and Jean Hess, were arrested Tuesday evening for taking an estimated twenty-five automobile gasoline tank caps. Marshal Peterson, who made the arrest, said that about fifteen of the caps were still in his possession, after replacing all those which were missing on automobiles along Main street. He said, however, that some of the caps were probably stolen in some other town.

The arrest was made about 11:30 p. m. after the girls had removed the cap from a car in which some Antioch youngsters were sitting, and Peterson was called to the scene. The girls were taken before Police Magistrate E. Elmer Brook and trial was set for Saturday morning of this week.

Peterson said that the caps would probably be kept for evidence until after the trial, but that after that time owners would be able to recover them.

Chicago Motor Club Urges Summer Drivers To Observe Caution

The end of the school year calls for added care and caution on the part of the drivers of motor vehicles, according to Charles M. Hayes, president of the Chicago Motor Club.

"Instead of being confined to classrooms, lecture halls and even gymnasiums at regular hours," he said, "these children in the public, private and parochial schools will often be on the streets, visiting friends, running errands, or on their way to and from play areas. Traffic hazards are increasing because of the age of present day cars and the stepped-up travel trend."

"In addition to that," Hayes added, "the nation no longer has the services of the third of a million School Safety Patrolmen. These boys and girls serve only during the school term, and they are just as anxious for play and recreation as their classmates whom they helped to protect."

V. F. W. To Meet Tuesday Evening

Sequoia Post Veterans of Foreign Wars will hold a regular meeting at the Guild hall on Tuesday, June 4. The new officers of the group request that all members be present for the business meeting.

J. P. Miller Is Winner in Lions Golf Tournament

J. P. Miller was first prize winner at the Antioch Lions club annual spring golf tournament Monday afternoon at Chain O' Lakes country club. Miller was winner by virtue of holding low gross score for the tournament. Other winners included O. W. Turner, 2nd low gross, Louis Bauer and C. R. Keulman, 3rd low gross. Prizes for low net went to Bruno Manzardo, C. E. Gaffey, and E. C. Jacobs tied with Leslie Frisbie for third place.

A great many guests were present for the event. Among them were Lion President William J. Murphy, Lion Secretary George Trout and William Penrock, of the Round Lake Lions club, William Schraeder, O. W. Turner, Leslie Frisbie and Dudley Kennedy.

The nominating committee, appointed at a previous meeting, made a resolution for a change in the by-laws of the club, which would change the annual election date to January 1 of each year. The committee also recommended retention of present officers until that time, and also asked that the staff of officers be augmented to include the election of an assistant treasurer and assistant secretary, citing the growth of the club membership as making the move advisable.

Old-Age Benefits Not Affected By Unemployment Compensation

"Some older workers are losing part of their old-age insurance benefits under the Social Security Act because they think filing a claim for those benefits will make them ineligible for payments under the Illinois unemployment compensation system if they should lose their jobs." This statement was made today by Bernard Barnett, manager of the Waukegan, Illinois Social Security Board office.

"Filing a claim for old-age insurance benefits does not of itself affect any rights a worker may have under the Illinois unemployment compensation system," Mr. Barnett said. "Nor does filing a claim or receiving unemployment insurance affect a worker's rights to old-age insurance."

"We have been urging workers 65 or older to find out from us if they are 'insured' under the old-age and survivors insurance and, if so, to file their claims even though they plan to continue to work," Mr. Barnett continued. "While they cannot receive old-age insurance benefits while at work on jobs that come under social security, the benefit amount they will receive when they do retire, and during any months when they are not working, will be higher in almost every case if they file their claims soon after they are 65."

Veterans May Claim Disability Pensions After Discharge

Veterans who signed statements at the time of discharge that they were in "good health" and did not desire to file a disability claim did not "sign away their rights." They can file a claim for service-incurred wounds or disabilities any time after their discharge.

Illinois Service Officer Arthur F. Reutlinger, at American Legion Home Waukegan, Ill., calls attention to Sec. 105 of the "GI Bill" which reads:

"No person in the armed forces shall be required to sign a statement of any nature relating to the origin, insurance, or aggravation of any disease or injury he may have, and any such statement against his own interest signed at any time, shall be null and void and of no force and effect."

The service officer of the Illinois Veterans Commission will assist any veteran in filing a disability claim.

Lyle Wohlfeil, son of Mr. and Mrs. Frank Wohlfeil received his discharge May 21. Lyle served for the past three years with the Marine Corps. Serving for 22 months overseas in Japan, Siapan and Okinawa. He left Japan April 25th and reached the U. S. May 9. He called at the Antioch News office Tuesday afternoon to express his thanks to the American Legion and the Antioch News for sending him the paper while over there.

Memorial Day Program; Parade Set for Today

All is in readiness for Antioch's Memorial Day observance, according to John L. Horan of the Legion Post and Commander William Schneider of the Sequoia Post V. F. W., co-sponsors of the program.

The program will start at two p. m. with a parade which will start at the high school grounds and the parade will wind up at the Village park, where the program will be presented. Musical numbers will be presented by the Legion Post Drum and Bugle corps and the Antioch Township High School band. The address will be given by Frederick H. Fahringer, chaplain at Hines hospital.

Recreation Program at High School to Get Underway Soon

Antioch Township high school's summer adult recreation program will be started during this week, according to T. R. Birkhead, principal at the school administrator of the program.

The initial meeting of interested persons, held at the school Monday evening, was attended by a number of representatives of groups of devotees of different sports.

The field will be lighted during the week on Tuesday and Friday evenings. The teenagers will have possession of the field on Friday evenings and the Legion softball team will hold sway on Tuesdays. Birkhead stated that the field would be lighted on other nights of the week if requested for other activities.

Tennis, Horseshoes, Badminton and Croquet are among the sports which were mentioned at the meeting and it was explained that sufficient room on the field would be available for most of these to be played at the same time the softball field was in use.

The tennis courts will be lighted on Tuesday and Friday evenings, also, and they may be lighted on other nights by arrangement with Birkhead, who explained that the school would furnish the playing facilities, but not the equipment. In other words, the horseshoe stakes would be installed but players will furnish their own tennis rackets, horseshoe pitches will bring their own horseshoes, etc. Advance interest in the program indicates that the lighted field will be in use a good bit of the time this summer.

Law Enforcement Conference Will Be Held June 3

One of a series of law enforcement conference currently being held throughout the middlewest will be held at Waukegan on June 3. The meeting will be held in the sheriff's office at 1:30 p. m. and all law enforcement officers in the county are urged to attend.

The series is being sponsored by the FBI for the purpose of bringing the various law enforcing bodies into closer co-operation and to help stem the rising crime wave.

In addition to the subjects of interest and benefit to various Law Enforcement officers, these conferences will consist of such topics as the approach, arrest, and search of a dangerous criminal on the street. A practical demonstration will be had on this subject. Also a demonstration will be given showing the proper and improper way to search an automobile for evidence as well as the correct and incorrect way to maintain the evidence gathered in the search. In addition to these there will be a discussion of some of the dangerous fugitives at large in the country.

Subdivision Roads At Loon Lake are Improved By Ass'n.

Louis E. Bozic, president of the North Shore Improvement Association, Loon Lake, reports that the roads on the North shore subdivision have been graded and blacktopped. Other improvements to be carried out by the association include the maintenance of two parks for the use of lot owners in the subdivision and free garbage disposal during the summer months.

A total of 4150 feet of roadway was improved in the program and Bozic raised through dues of the members states that the money expended was and the annual carnival and other entertainments sponsored by the group throughout the year.

R. E. Pincombe is secretary of the association for the year and J. W. Koss will serve as treasurer.

An Admission of Failure

The railroad unions have always been given credit for outstanding ability in settling their wage controversies without destructive action. They have not been classed with the more radical elements in labor controversies. It comes, therefore, as a shock to see President Whitney of the Brotherhood of Railroad Trainmen, recommending immediate seizure of ownership and operation of the country's railroads by the government, as the only way to "make suitable adjustments of grievances with employees."

The Brotherhoods of Railroad Trainmen and Locomotive Engineers rejected the report of the presidential fact-finding board which recommended wage increases of sixteen cents an hour. They are showing a woeful lack of intelligence by rejecting the recommendations of an independent governmental agency, and in having no better suggestion than government ownership of the industry in which they work. Asking for government ownership is an admission of inability to solve problems as free and independent citizens. Under government ownership there would be no place for unions—when you work for the government you don't strike—that becomes revolution and the Army takes over. At the present time when a union strikes against a private company, sympathy is more apt to be with the workers than with the employers. But when government owns an enterprise, a strike becomes an attack on all the people, for they are then the owners and employers.

If the brotherhoods figure that under government ownership they could strike with impunity and refuse to abide by awards that do not meet their demands, they favor anarchy. Certainly men as intelligent as the members of the railroad unions cannot contemplate any such course.

Running to the government, like a cry-baby to his mother when he wants all the other little boys' candy, is not the American way of doing things.

* * *

No Time For Name Calling

Name calling is out of place in the present emergency. The disgrace antics of some labor, business and government officials at a time when practically every institution of American life is in danger, is inexcusable. The recent exchange of epithets between the head of the National Association of Manufacturers and a United States Senator, is typical. Each condemned the motives of the other in regard to price control. The public gained nothing from the exchange and the press wasted tons of valuable news print.

There are sincere, intelligent, patriotic people on both sides of the price control controversy who are struggling with a staggering economic problem—the sudden appearance of a back-breaking public debt. That a large part of the debt was unavoidable due to war, is water over the dam, and so is the profligate spending of the Federal government for the past decade, and its failure to collect taxes to meet ordinary expenses.

The problem now, other than attainment of a balanced Federal budget, is how to prevent our representative form of government, together with the economic and political liberties of the people, from being crushed in the struggle of various groups to escape the hardships of postwar turmoil. No matter what happens, the laws of the land and the safeguards against oppression, born of the wisdom of the ages and written into the United States Constitution, must be preserved. They cannot be preserved if they are ignored in attempts to control inflation, strikes, or any other economic disturbance. Nor can they be preserved if the government bows to the unreasonable demands of any group.

Electricity...

**a vital farm tool on more
than 87% of the farms in this area**

Way Back in 1912—thirty-four years ago—127 northern Illinois farmers blew out lamps and lanterns for the last time ... started flipping switches to flood their homes and barns with safe, electric light. By 1925, more than 800 miles of rural electric lines were serving 1000 customers; and at the end of 1935, almost 9,000 farmers on 2,800 miles of power lines were enjoying the numerous benefits of electricity. Came 1943 and nearly 20,000 farmers were using power to make farming easier and more profitable.

Today There Are More than 6,500 miles of rural electric lines threading their way along main roads, up and down dirt and side roads, criss-crossing the 6,200 square mile territory served by the Public Service Company. Over these electrical highways travel the kilowatts that kick up farm production and profits ... cut down work ... make daily living more convenient and comfortable on 26,973 farms and rural units.

The Power That Flows through these lines comes from the same dependable, interconnected sources

that not only supplied the farmers with much-needed help during war years, but also met the tremendous wartime power demands of hundreds of war industries.

As A Consequence of careful planning and increased facilities, there is today, as there was during the war years, a reservoir of electric power—the modern tool of agriculture—that enables the farmer to save more pigs ... produce more eggs ... add more cows to his herd ... get more milk—and keep it at top quality. It's a "wired" hand that neither sleeps nor tires—it's a willing worker that does the job faster ... better ... cheaper.

There Are Now 30,041 farms and rural units in the area served by this company. 26,973 of them already have electricity or have contracted for it. Obviously, then our goals this year are two: to stretch rural power lines to the most remote farms and supply every farmer with all the power he wants and needs ... to help him get the most benefit from it. And most important—to do both as quickly as possible in order that he may enjoy farming at its very best.

As we were saying-----

By Jack and Louie

Howdy Folks: The moon may not influence the tide, but it certainly has an effect on the untied.

One man blamed the moon for his marriage. He said if it hadn't been for the moon her old man never would have caught him.

Of course marriage is the spice of life.

We heard about one man who went into matrimony with his eyes closed. Her father packed an awful wallop.

Some times a man takes a wife for a mate and she turns out to be a skipper.

Well, marriage is a fine institution. We wouldn't be without it.

Just as you'll never be without a clean dress or suit once you've tried us for your cleaner.

Remember also rugs, drapes, slip covers, gloves and hats we clean.

Sugar

Here are the facts about the supply and demand for sugar this year.

The total supply of sugar is very short. World production during the 1945-46 season was 18 percent less than before the war. And the amount of sugar available to American civilians is also less. Yet this year the average American is getting much more sugar than the average person in nearly all other countries of the world.

The total demand for sugar is very great. Americans want and have the money to buy much more sugar than they can get with their sugar stamp. The peoples of war-devastated areas in Europe and Asia are desperately in need of sugar and other food. That is why the world supply of sugar must be shared among all the nations. Here are suggestions to home canners.

1. Spare Stamp No. 9 is now good for 5 pounds of sugar for home canning. This stamp is good through October 31, 1946.
2. Keep this stamp until you really need the sugar for home canning. Don't spend it until fresh fruits are ready for canning. That will help you make sure that you use this sugar for canning—not for table, baking, or other purposes.
3. You may live in a place where canning is done some time in the summer—not in the spring. When your canning season comes around your grocer will have enough sugar to "cash" these canning sugar stamps.
4. Later in the canning season, OPA will probably make another stamp good for canning sugar. This second stamp is expected to be made good for only up to five pounds. This means that the most you'll get is 10 pounds of canning sugar for every member of your family.
5. Use one pound of canning sugar for at least four quarts of fruit.
6. The next sugar stamp for regular home use becomes good May 1, for 5 pounds. This must last you four months.
7. Play fair and square with your friends and neighbors—and with the hungry people abroad. Don't buy sugar for canning without giving up the required sugar stamps. Pay no more than the ceiling price on sugar. Help stop black marketing.

Mrs. Rita Hilbert, sixth grade teacher at the Antioch Grade school and her pupils enjoyed a picnic at Fox River Park, near Wilmot, Wis., Wednesday afternoon.

Mistake Jade
Many minerals are mistaken for, or sold as, jade; among them, saussurite, chloromelanite, pectolite and serpentine, of which there are large quantities in Rhode Island and Vermont. Finest of all jade collections is not in Asia, but in the United States, where it was presented to the Metropolitan Museum of Art in New York City by H. R. Bishop.

Protective Shield
If perspiration is a problem, have moisture-proof shields put in a coat at the underarms. Perspiration weakens wool and causes it to mat and look fuzzy.

Plucks Threads
A pair of tweezers is useful for plucking out threads that have been caught in sewing machine stitching.

20% extra pay

for service in Europe—
Pacific—Overseas

Although thousands of Americans are eager to go abroad today, few will be able to make the trip. But if you are a young man from 17 to 34 years old, you can go overseas—with a good job, your traveling expenses paid, food, clothing and quarters supplied free . . . and a 20% bonus added to your regular pay.

How? By enlisting in the new peacetime U. S. Regular Army for a 3-year period. This 3-year enlistment also enables you to choose the particular branch of service in which you want to be.

No matter where you are stationed, you'll be able to study in U. S. Army Training Schools, specializing in skills and trades which will prepare you for a

good civilian job later on. And the GI Bill of Rights provides a college, trade or business school education with a living allowance for you after your discharge.

These are only a few of the many attractive enlistment privileges now offered by the Army. You owe it to yourself to get the full story in detail—without obligation. Stop in today.
